

*GG Top of the Hill Gang*  
*First Round Non-ski events schedule for 2010*

**December 21, 2009**

**Pilot Solstice Photo History Project**

Top of the Hill Gang VP Michael Creedman invites members to participate in a personal history experiment, using photographs and brief text to record a snapshot of the way the world looks to each individual.

The idea is that if enough people participate, a consensus might be seen, and over time, an informal kind of Gallup Poll of our opinions might develop. To give it some boundaries and shape, the photographs are made only on the shortest and longest days of the year.

Each participant selects just one picture and submits it with a short text of what it represents. "This a good thing to do," he says, "I'm just not yet able to explain why." To become part of the experiment, get more information, or offer suggestions, call Michael at 415/ 643-1942 or email at: michael@creedman.com

---

**Off-Slope Winter Ideas**

**TBA January-February-March Theatre or Concert Events**

Small Groups of four to eight attend random selected events that have received critical praise. Dinner before or dessert following production arranged on ad hoc basis.

Any member can lead, but to prevent confusion and competition, please submit details to Michael who will schedule the date and send your announcement to Henry for distribution to the membership. The sponsor coordinates who will meet when and where, and sends a review of the event (optional) when it's over.
